

Webinar 2 | Agenda

Tabadul - تبادل

Reporting on climate
change complexity in the
Mediterranean region

29 November 2021 | 11.00 AM CET

Within the celebration of the first Mediterranean Day, the second **Tabadul** webinar that will take place the **29th of November** aims to explain the basis of the interconnection between water, energy, food and ecosystems – the so-called WEFE Nexus – when reporting about climate change.

journalist at Inkyfada

Q&A and closing remarks

Biography participants

Jihed Ghannem

Jihed Ghannem is working on communication for nature and sustainable development in the Mediterranean with the UNEP Mediterranean Action Plan (MAP)—Barcelona Convention Secretariat in Athens. Previously team leader at the UN Information Centre in Tunisia and Comms Officer at the Sahara and Sahel Observatory, an Adaptation Fund Regional Implementing Entity and UNFCCC Observer organization.

Manfred A. Lange

Professor & researcher. Research topics: His main research interests include the assessment of climate change impacts with a focus on water- and energy security, renewable energy sources and energy- and water use efficiency in the built environment.

Chantal Menard

Chantal has been working as communications manager and expert for more than 15 years on environmental issues in the Mediterranean. She's been managing communication strategies, implementing activities of all kinds and leading campaigns with WWF, the UN FAO/ GFCM, UNEP-MAP, PAP-RAC, UNESCO, MedWet and many other organisations.

Chantal likes to deal with complex and multicultural environments and is passionate about the Human dimension of success, strategic thinking and straightforward storytelling. She also has a special interest in video and social media ethics.

Lyse Mauvais

Lyse Mauvais is a freelance journalist based in Amman, Jordan, where she covers various environmental issues in Jordan and the wider Arab region for French and English-language outlets. Previously, Lyse was a reporter for Syria Direct where she covered humanitarian and environmental issues in northern Syria.

Dania Al-Momani

Dania Al-Momani is a geologist and member of Eco-Youth Jordan -the voice of young women and engineers in the fields of agriculture and the environment. Dania is one of the thirty female engineers in Jordan that got training in the up-skilling program in Agriculture-water-energy nexus at Sahara Forest project. She represented Jordan in the youth exchange program called "Green Future" with other 4 countries from Europe and the Middle East.

Aïda Delpuech

Aïda Delpuech is a French-Tunisian journalist. Currently based in Tunis, she contributes to the online independent media Inkyfada. Her stories mainly focus on environmental and agricultural issues along with their social and health consequences.
